ESRI MPA PRICE LIST
(E417 2Q13)

General Information and Disclaimers

1. The following Software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.

2. The listed prices are exclusive of shipping, handling, and any applicable taxes. Delivery terms are FOB Redlands, California. Shipping and handling will be prepaid and charged back, i.e., included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Your Esri Sales Representative can provide a specific quote including applicable shipping and handling charges.

3. Eligible buyers may at any time request a specific quote based on this contract from an Esri sales representative. When selecting items from this contract without assistance from an Esri sales representative, be aware of the following general rules:

    (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.
    (b) Some products have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, Software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the Software, and extension Software is only functional in combination with the corresponding core Software. If you have questions regarding your configuration, please contact your Esri representative for additional information.
    (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your Esri sales representative for additional information.
    (d) Some items are not offered to all potential buyers. For example, certain Software upgrades are only offered to customers who have acquired the most recent versions of the Software, and local government licenses are only offered to local government buyers.
    (e) Buyers must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-Site training information at Esri's website (http://training.esri.com/gateway/index.cfm?fa=classroom.requirements) for details.
    (f) Esri Site Training (i.e., Training at one of Esri's Training Centers) requires a completed registration application form from each student. Registrations are processed on a first-come, first-served basis. We recommend that you submit this registration information at least one month prior to the start date of your class. See the Learning Center registration information at Esri's website (www.esri.com/training/register.html) for details.
    (g) Training will be provided in accordance with the policies defined under Training at www.esri.com. Training prices are subject to annual escalation, not to exceed a seven and one-half percent (7.5%) increase in January of each year.

4. Support services are defined at Esri's website (www.esri.com) within the user support section. Particular attention should be paid to the fact that some Esri Software comes with complimentary maintenance for the first year and other Software features different support plans.

5. New Software releases for most Software products are provided exclusively through maintenance programs. In these cases, Software upgrades are not sold separately.
